

Short school on

## **“Polymer rheology and processing for mechanical recycling”**

*sponsored by*

*Marie Curie Industrial Doctorate project “REPOL - Characterization, compatibilization, processing and properties of recycled polyolefins”*

13<sup>th</sup> April 2023

Venue: Genova, Biblioteca Universitaria (Via Balbi, 40)

### PROGRAM

- 9:00-10:00 **Rheology for processing**  
*Nino Grizzuti* (University of Naples)
- 10:00-11:00 **Processing and mechanical recycling of polymers**  
*Francesco Paolo La Mantia* (University of Palermo)
- 11:00-11:30 COFFEE BREAK
- 11:00-12:00 **Crystallization of polymers in processing conditions**  
*Roberto Pantani* (University of Salerno)
- 12:00-13:00 **Non-intentionally added substances and odour testing of recyclates**  
*Andreas Fuchs* (Borealis Polyolefine GmbH)

Participation for Master and PhD students is free of charge, but limited places are available, please send an e-mail to: [dario.cavallo@unige.it](mailto:dario.cavallo@unige.it) for registration and information requests, before 17/03/23
